

Topic – Design

This term pupils will be creating their own model moon buggy. Over a series of lessons they will complete a design booklet to create their moon buggy. They will learn about the steps involved in creating a project: designing, making and evaluating. They will also learn about healthy eating, which will tie in all of the steps above as pupils will be able to design create and taste their own healthy wraps.

Maths – geometry

In maths we will look at properties of shapes, focussing on the number of sides and corners of different shapes. Pupils will also look at positional language using a Beebot programming.

Spring term Otter class group overview

English – Interactive stories / spelling

The English focus this term is on spelling. Pupils will be exposed to spelling words through a variety of activities including:

- Interactive stories with key words made into labels
- Word games
- Arts and crafts

PSHE – managing feelings

PSHE lesson will focus on emotions and mental health. Pupils will learn to identify their emotions, link them to the zones of regulation and explore different activities to support them.
