Safeguarding children is a task for everyone at Step by Step School.

All staff members at Step by Step have an important role to play in helping to identify welfare concerns and possible indicators of abuse or neglect at an early stage.

For some children a one-off serious incident or concern may occur and you will have no doubt that this must be immediately recorded and reported. Most often, however, it is the accumulation of a number of small incidents, events or observations that provide the evidence of harm being caused to a child.

It is vital that any concern you have for a child's welfare, however small, is recorded and passed to our Safeguarding Lead.
